USPVH

Strength You Can Trust. Solutions That Deliver.

U.S. Pipe Valve & Hydrant, LLC (USPVH) is your trusted partner for reliable, high-quality solutions in municipal, commercial, and industrial water systems. With decades of expertise, USPVH specializes in providing durable products that ensure performance and longevity. From fire hydrants to gate valves, check valves, tapping valves, and sleeves, our extensive product range is engineered to meet the most demanding requirements. Whether it's for water distribution, fire protection, or system maintenance, USPVH products are built to last, and our team is dedicated to supporting your success every step of the way. **As a customer of USPVH, you benefit from:**

PROVEN PRODUCT PERFORMANCE

- Access to durable, American-made hydrants and valves designed to meet or exceed AWWA, UL, and FM standards.
- Solutions built to withstand high pressure and harsh conditions—perfect for municipal, commercial, and industrial use.

COMPREHENSIVE WATER SYSTEM SOLUTIONS

- Access to a full product line of fire hydrants, gate valves, check valves, tapping valves, and sleeves—designed to work together seamlessly.
- Simplified sourcing and system compatibility for more efficient project planning and execution.

EXPERT SUPPORT & TECHNICAL GUIDANCE

- Backed by decades of industry experience, USPVH offers hands-on technical support, installation resources, and training.
- Engineers and specifiers can count on expert product knowledge and responsive support throughout the project.

QUALITY YOU CAN TRUST

- Manufactured in ISO 9001-certified U.S. facilities, ensuring consistent, high-quality output.
- Products are rigorously tested for performance and constructed with materials that provide long-term corrosion resistance and ease of operation.

LONG-TERM VALUE

- With extended warranties, innovative product features, and a reputation for durability, you benefit from lower maintenance, fewer replacements, and reduced lifecycle costs.

DEFENDER™ FIRE HYDRANT

Strength You Can Trust. Protection You Can Rely On.

The Defender™ Fire Hydrant upholds the standard for exceptional performance in safeguarding life and property. Designed for unwavering reliability, it combines American-made iron, steel, and brass with over 165 years of manufacturing expertise. Built for efficiency, the Defender™ Fire Hydrant simplifies installation and maintenance while withstanding working pressures up to 300 PSI, surpassing rigorous industry standards. With a 10-year limited warranty, it's the trusted solution for dependable municipal fire protection.

DESIGN FEATURES

SEALED LUBRICANT RESERVOIR

Ensures smooth operation, longevity, and low operating torque.

EXCEPTIONAL CORROSION RESISTANCE

E-coated parts and dual o-ring seals.

SUPERIOR FLOW CHARACTERISTICS

Large, smooth-radius openings for maximum efficiency.

TRAFFIC IMPACT MITIGATION

Breakaway features minimize infrastructure damage in a collision.

LOW MAINTENANCE

Robust encapsulated main valve and exceptional UV-resistant polyurethane coating system.

AMERICAN-MADE QUALITY WITH INDUSTRY CERTIFICATIONS

Manufactured in Albertville, AL, in an ISO 9001-certified facility, meeting ANSI/AWWA C509/C515, NSF 61 & 372, UL 262, and FM 1120/1130 standards.

RESILIENT WEDGE GATE VALVE

Built for Pressure. Made to Last.

Our Resilient Wedge Gate Valves are designed to deliver exceptional performance and durability for potable water systems, making them an ideal choice for a wide range of applications. Rated at 300 PSIG and rigorously tested to meet AWWA, UL, and FM requirements, these valves are engineered to handle even the most demanding applications with ease and efficiency. Proudly American-made and certified, they are built with high-quality materials to ensure reliability, long-lasting use, and consistent operation. Whether you're managing municipal water supplies or industrial systems, these valves provide the peace of mind that comes with superior craftsmanship and unmatched resilience.

DESIGN FEATURES

300 PSIG MAXIMUM WORKING PRESSURE

Designed for high performance, each valve is tested to ensure strength and durability.

DUAL-PURPOSE LIFTING LUGS

Simplifies handling and alignment by supporting straps and hooks, eliminating the need for a valve box adapter.

TRIPLE O-RING SEALS WITH LIVE REPLACEMENT

Three O-rings retain lubricant and enhance performance – two can be replaced while the valve is open and under pressure.

MUELLER PRO-GUARD® FUSION-BONDED EPOXY COATING

Internal and external coating protects against corrosion and meets AWWA C550 standards for potable water safety.

AMERICAN-MADE QUALITY WITH INDUSTRY CERTIFICATIONS

Manufactured in Chattanooga, TN, in an ISO 9001-certified facility, meeting ANSI/AWWA C509/C515, NSF 61 & 372, UL 262, and FM 1120/1130 standards.

RELIABLE DELIVERY. RESPONSIVE SUPPORT.

At USPVH, we deliver more than high-performance hydrants and valves—We deliver confidence. With a strong product offering and an extensive distributor network, our products are available when and where you need them.

We are committed to long-term partnerships with our customers, suppliers, and employees alike. That's why our team stays responsive, solution-focused, and always ready to help—from product selection to installation and beyond.

Backed by local inventory, expert support, and a legacy of trust, we're here to deliver solutions that support your project needs.
